CONGREGATIONAL CHURCH, OTISFIELD

where the Annual Session of Churches and Ministers will be held Wednesday and Thursday, June 10 and 11, 1914.

Memorial Service Sunday.

The Annual Memorial Sunday service before Harry Rust Post and Woman's Relief Corps was held, Sunday morning, at the Methodist Episcopal Church.
The auditorium was prettily decorated with red, white and blue about the platform with a picture of Abraham Lincoln in the center draped with flags. Potted plants added to the decorations.
The music was furnished by a quartet composed of Mrs. Walter Morgan, Helen Dunn, Walter E. Morgan and Wiggie L. Merrill, with Ida Dean at the organ.
The Memorial sermon was delivered by the Pastor, Rev. H. L. Nichols, who took for his text, Rev. 19, 11, "In Righteousness He will judge and wage war."
In his opening remarks he spoke of the weight of prophecy and history on the nations and that the conditions of national life as prophesied by Isaiah are now being fulfilled as may be seen by a comparison of the times. He said in part: "It will not be many generations hence when peace shall prevail because brave men have been willing to die for righteousness and peace. God sanctions righteous warfare in the execution of His decrees. The veterans of the war fought under righteous indignation on account of Slavery. There was justice in the one case and vengeance in the other. The achievements of the veterans will be remembered and Memorial Day is a day of great achievements, and is a beautiful thing. It is a day of purest Patriotism."
The children, as they follow the veterans to the graves will learn more than they would from all the celebrations. Patriotism is a real devotion to our nation and all times, and strengthens our faith. His hand can be seen through the sixties and increases our faith so long as we, as a nation, are true to Him, He will guide us.
He then spoke of the soldiers' triumph; while your sons and daughters are the soldiers, militant, and it is our duty to perpetuate Memorial Day each year. Every nation has its questions and perplexities and loud the call for now, as then, and we must have a clean heart and pure in righteousness.
The Emancipation Proclamation set the slaves free but they now need our help in education as much as ever, and we as a people should carry out the emancipation proclamation. An- other evil in our country is the road traffic that brings sorrow and strife, and ruins the lives of 100,000 each year. Then there is the Industrial slaves, and the white slave trade which needs attention. The political life needs improvement. The things of the material world are taking the place of the spiritual in many cases, and we shall go down as have other nations if these evils are not over- come. In closing he urged all to strive to do their duty, to be honest, to bow before God and to follow our Leader.

We learn by the State Assessor's Report of 1913, that Norway's rate of taxation was 21 mills on a dollar. We had inferred from conversation made by some taxpayers that our tax rate was the highest of any in the County if not in the State, however, the above report shows that 20 towns out of the 35 in this County have a higher rate than Norway. Can you believe it?

30,000 VOICES

And many Are the Voices of Norway People.

Thirty thousand voices—What a grand chorus! And that's the number of American men and women, who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Norway people are in this chorus.

Here's a Norway case: "I know of no other remedy as good as Doan's Kidney Pills," says M. M. Kilgore of Danforth St., Norway. I had backache and rheumatic pain for more than a year. My kidneys were the cause of the trouble. Sometimes I was so lame I could hardly stand. I did not rest much and was feeling miserable when I was advised to try Doan's Kidney Pills. I got them at Stone's Drug Store and a few boxes cured me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Kilgore had. Foster-Milburn Co., Props., Buffalo, New York.

Better Paint. Better paint this year if your property needs it. Mistaken men have been waiting for paint to come down. The cost of their job has gone up not down; it always goes up by waiting; never comes down. Better paint than Devco? There isn't any. Suppose one had waited 20 or 30 years ago for a better paint than Devco; how long would he have waited? How long would he still have to wait? The price a gallon makes some difference; yes, but not much; it's the paint that counts; the quality counts. It's the go-for that counts. Protection of property counts more yet. Better paint.

WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives.

Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—all exert the weakening influence that invites consumption.

To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, purifies the blood, and rebuilds strength to resist tuberculosis. Scott's Emulsion is nature's strength-builder. Refuse substitutes.

The Last Pipeful of Sickle Is as Fresh as the First

Because you slice Sickle off the plug as you use it, and all the original flavor and moisture are pressed into the plug and kept there by the natural leaf wrapper—so that every piece of Sickle Plug is bound to be fresh when it goes into your pipe. You are sure of a slow-burning, cool, sweet smoke always.

Ground-up tobacco keeps getting drier all the time—so dry that it clogs in the bottom of the package and has to be dug out. No wonder it burns fast, smokes hot and bites the tongue.

When you buy Sickle you get more tobacco—because you don't pay for a package—and you smoke all you get, because there's no tobacco spilled and wasted. Just try Sickle today—your dealer sells it.

The Glover's Advantage.
Orators should beware of criticising their audiences. They are likely to provoke retorts that will go far toward marring their effects.

A school principal was lecturing his corps of teachers upon efficiency. "What," he demanded, "would be thought of a glove maker who at the close of the season found 10 per cent of his stock returned because it fell below standard requirements? Why should we require 100 per cent efficiency of the glove maker and only 90 per cent of the teacher?"

"Because," promptly responded a fearless teacher, "he can select his kids."—Youth's Companion.

Grange Day.

Last Saturday was a busy day with the farmers so that not many attended Grange except women who lived near. Only two men were present and those were secretary Wyman and chaplain Rev. Mr. Ball. The master and overseer both were absent and the next in rank came the lecturer. Mrs. Ball took the masters place and the regular routine of business was attended to. The program of entertainment was enjoyed as follows: Quotations on birds by members, piano solo, Doris Field, then an interesting discussion upon: what birds are the most valuable to the farmer in which a number took part until many kinds of birds were mentioned even the crow and English sparrow were thought to do more good than harm. A paper by Rev. D. A. Ball on: fifty common birds of farm and orchard sketched from the author H. W. Henshaw who has made birds a study in the way of observation and examination. The next meeting of the Grange will be observed as Children's Day and will probably be an open meeting during the program.

Mr. Wyman expects to have an apple spraying demonstration at his home some time during the falling of the apple blossoms. Prof. Yeaton will be present and Mr. Wyman is going to extend an invitation to all members of the Grange to come and have a picnic dinner and he will treat all on hot coffee, but as no one can tell the exact day, he will announce it by telephone as far as possible, and each so notified extend the word to all others.

Rev. L. W. Raymond accompanied his daughter to Ocean Park, Monday, where she will spend the summer. There will be the usual observance of Memorial Day. Children, soldiers and citizens will meet at the Grange hall at 9 o'clock a. m., and march to the cemetery to decorate the graves and a short service there, then return and have an appropriate memorial service in the hall. The speakers will be announced later.

Last week, Wednesday, Mr. and Mrs. Charles Dunham drove up from South Paris with a stable team that was supposed to be safe but which proved to be quite the opposite. After an hour or two with Mrs. Dunham's aunt and uncle, Dr. and Mrs. O. K. Yates, they started to return and the horse began to kick and run and threw them out and ran into a wire fence between Fred Penney's and Frank Hill's, where he also got thrown and entangled so that he was caught. The only damage to the carriage was a broken thill. Mrs. Dunham received a sprained ankle and other bruises on her body and head so that she could not walk and for a time was unconscious, and unable to return home for several days. Mr. Dunham was also badly bruised and lamed.

WHEN DOCTORS DISAGREE.

A Query Which Recalled the Story of "Justice" With a Big G.

WHEN the new edition of one of the best known encyclopedias now on the market was being written and the various specialists were in the sanctum at work, the historian turned to the mathematician and asked, "How do you spell 'ingestion'?"

The other, not understanding that was said, replied: "In jest? With a J, of course."

"No, 'ingestion.' I appreciate your gibe, but this is no jest."

To which the mathematician answered meekly: "With a G, I suppose. Same as 'gestation,' isn't it?"

The authority on physiology who overheard the reply broke into the conversation to explain that "ingestion" and "gestation" had nothing to do with each other and added that the ignorance of his conferees on some subjects reminded him of the judge who charged the jury, "The verdict must be in accord with the rules of justice, with a capital G." In consequence of which the jury brought in a verdict of "Guilty."—New York Tribune.

Inexcusable Interference.

"You insist that the officer arrested you while you were quietly attending to your own business?"

"Yes, your honor. He caught me suddenly by the collar and threatened to strike me with his club unless I accompanied him to the station house."

"You say you were quietly attending to your own business, making no noise or commotion of any kind?"

"Yes, your honor."

"What is your business?"

"I'm a burglar."

His First Thought.

The Irishman was relating to some friends in Glasgow how one night on retiring to bed he fancied he saw a ghost, and, having a revolver handy, he fired at it. Next morning he examined the object he had shot and discovered it to be his shirt.

"What did you do then?" asked one of the company.

"Bedad, I just thanked heaven I wasn't inside of it," replied Pat.—London Tit-Bits.

Mrs. Fidget (as she lays down her novel). These ghost stories are silly. Just as if any one would believe them.

Mr. Fidget—Yes, that's so. But you had better go to bed now, dear. It's after 11 o'clock, and I'll have to be up for a couple of hours yet.

Mrs. Fidget—What! Go to bed alone after reading that book? Not much!—Puck.

"Young man," said the boss, "I like to see you arrive in the morning feeling fresh."

"Yes, sir."

"But let it end there. You have a habit of keeping your freshness up all day."—Kansas City Journal.

LOSS OF APPETITE

Most Successfully Treated by Taking Hood's Sarsaparilla.

Loss of appetite is accompanied by loss of vitality, which is serious. It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions.

Hood's Sarsaparilla, the old reliable all-the-year-round medicine, is especially useful in the spring. Get it from your druggist. By purifying and enriching the blood and giving vitality, vigor and tone, it is wonderfully successful in the treatment of loss of appetite and the other ailments that are so prevalent at this time. It is not simply a spring medicine—it is much more than that—but it is the best spring medicine.

Hood's Sarsaparilla makes the blood and blood that the stomach and other digestive organs need. Get it today.

Little Conversations.

"I know," said the restaurateur, "that a great many people object to music while they are dining, but there are a great many others who like it. I think, at any rate, that the moral effect of music is good. For instance, it gives an atmosphere of friendliness."

"Good!" said Bilkins. "Tenderness is good. I wish you'd ask your orchestra leader to try a few bars on this steak, will you?"—Pittsburgh Press.

"Hey, Jim! I got a job for you. Do you want to make a quarter?"

"No, sah," said the ragged one. "I done got a quarter."—Chicago News.

REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's Vegetable Compound Saved Her Life and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling, inflammation and congestion, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleepless nights, and had neither strength nor energy. There was always a fear and dread in my mind. I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fevers and chills are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all is pleasure and happiness in my home."

Mrs. JOSIE HAM, R. F. D. 1, Box 22, Shamrock, Missouri.

The committee appointed by the W. R. C. to solicit food for the Memorial dinner have not been able to get all around so they wish me to write anyone who lives in Waterford to donate towards the dinner.
The Ladies' Circle was entertained at the vestry Tuesday evening by Mrs. L. A. Knight with a fair attendance. A short literary program was given. In the donkey game for pinning the tail on the donkey, the contest was between Ray, C. N. Eliopoulos and Glyndon Patterson, and as the prize was a cake was easily divided between them.

Memorial day services will be as follows: In the morning the W. R. C. with all that can will march at 9 o'clock to the river bridge near the blacksmith shop and flowers will be put in the water for the departed sailors, and then all march to cemetery to decorate the graves there. Dinner will be served at the L. O. O. F. hall. Exercises and address at the church shortly after dinner.
What is feared a very serious accident occurred here Tuesday night about six when Ralph Knight was coming down the hill by the schoolhouse on his bicycle and Ralph Perkins was going up the hill. The former shouted to look out and both turned the same way. Ralph Perkins' head was crushed so he was unconscious. As the doctor here was away Dr. Stimpson was called and thought it best to take him to the hospital. They took him in an auto and started for Portland.
